

Warranty Statement

During the applicable warranty period, any Total Protection Solutions™ surge protection device which fails due to defect in materials, workmanship or any electrical anomaly, including lightning, shall be repaired or replaced at the manufacturer's discretion without charge. In the event of a return the device must be shipped FOB place of business within the applicable warranty period. The applicable warranty period for this surge protective device is outlined below in the Warranty Period section. The warranty period for any repaired device or replacement devices will be only the remaining portions of the original limited warranty.

Total Protection Solutions™ shall have no liability under this warranty for problems or defects directly or indirectly caused by misuse of the product, alteration of the product (including removal of any warning labels) accidents, improper installation, application, operation or improper repair of the product.

A Return Material Authorization (RMA) number must be obtained through the channels of purchase (distribution) before returning any products.

Warranty period begins from date of original owner purchase. This warranty is not transferable and may only be enforced by the original end user. Claims under this warranty must be submitted to Total Protection Solutions™ within thirty (30) days of discovery of any suspected product defect.

Warranty Period:
